field for him in the country whom foreign would be virtuosi are seeking to despoil.

This year's invaders from Russia. are not likely to push upon the heels of those of the last few years very

of those of the last few years very closely.

There are half a dozen young violinists, still in the hands of their New York teacher, who would have given a fair better account of themselves in this sonata and concerts than this newcomer who bears the name of the instrument upon which he plays.

Our generosity is large; the field of endeaver upon which Mr. Violno entered yesterday, is large; we wish we could have invited him into it with more pleasure than he has permitted us to feel.

Piastro, Russian Violinist. Makes American Debut Mishel Pinstro, a Russian violinist, the alayed his first American concert a Carnegie Hall yesterday afternoon, nay write his name large upon the one list of virtuou, who now represent his native land in this country, for he is an impassioned player, and hough young an artist of distinction, his style seems to indicate that he am ultra Remanticist, endowed with

No Cost to make this test

Simply send the coupon for the 10-Day Tube of Pepsodent. We send it free to let the tooth paste prove its own results.

See and feel these benefits, then do what you think is best.

# Why Teeth Glisten

after dental cleaning—Why they soon grow dim

All statements approved by authorities

Your teeth glisten for awhile after a dental cleaning. Then they soon grow dim.

The reason lies in film. That is what makes teeth dingy. Your dentist removes it, but your tooth brush leaves much of

Now there's a way to daily combat film. Millions of people employ it. Shining teeth seen everywhere show how much it means. This is to urge that you try it and see what it means to you.

#### You must fight film

That viscous coat you feel on teeth is film. It clings to teeth, enters crevices and stays. The tooth brush does not end it used in ordinary ways. So, in the months between your dental cleanings, it may do ceaseless damage.

It more than dims teeth-it destroys them. Most tooth troubles are now traced to film. And, despite the tooth brush, those tooth troubles have been constantly increasing.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. And that is alarmingly common.

Science finds ways

Dental science has for years sought ways to fight that film. Proper tooth protection was impossible without it. This world-wide research has resulted in efficient methods, now at your command.

Years of careful tests have proved them, Authorities endorse them. Leading dentists everywhere advise them.

The methods are combined now in a dentifrice called Pepsodent. Millions already employ it, largely by dental advice. To those who do not know it yet we send a test tube free.

### See and feel it act

One needs no scientific knowledge to realize Pepsodent effects. The results are quick and apparent. Every application repeats the benefits it brings.

One ingredient is pepsin. Another multiplies the starch digestant in the saliva, to digest starch deposits that cling. The alkalinity of the saliva is multiplied also, to neutralize the acids which cause tooth

Two factors directly attack the film. One of them keeps the teeth so highly polished that film cannot easily adhere.

The film-coats are day-by-day fought as they never were before.

PAT. OFF.

The New-Day Dentifrice

A scientific film combatant, which brings five desired results.

Approved by authorities and now advised for daily use by leading

dentists everywhere. All druggists supply the large tubes.

## You'll be repaid

This ten-day test will well repay you. Not in whiter teeth alone, but in cleaner, safer deth.

You will know how clean teeth look and feel. And how children's teeth can be protected as they have not been before.

Send the coupon for the 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the fixed film disappears.

Watch the several effects from every application. The book we send will tell the reasons for them. You will quickly know that Pepsodent brings a new era in teeth cleaning. Cut out the coupon now.
